DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement filed June 4, 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. Two foreign documents have been lined through and have not been considered.

Specification

3. The abstract of the disclosure is objected to because the reference to Figure 1 should be removed. Correction is required. See MPEP § 608.01(b).

Claim Objections

4. Claims are objected to because of the following informalities: The unnumbered paragraph at the end should be removed. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 it is indefinite because it is unclear how to interpret the limitation "stiffly connected". It is unclear what "its" is referring to means for controlling or the first plate. It is unclear how to interpret the limitation "into motion thanks to the first plate". It is also unclear whether "the latter" is referring to the "the first plate" or the "connecting means".

In claim 3 it is unclear if the "two stationary longitudinal guides" are the same as the "longitudinal guides" of claim 1.

In claim 4 it is unclear if the "means" of claim 1 is the same as the motor reducer assembly, the cross-shaft, the sprocket wheels, and the racks.

Claim 5 recites the limitation "said articulated joints" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the arm" in line 2 and the "aforesaid auxiliary footboard" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
